BMS 270/Biochem 210 Micropathology module 2: Special Topics in Microbial Pathogenesis (2017)

Module: 2
Sponsoring Program: BMS
Administrator:Ned Molyneaux

STUDY LIST INFORMATION
Course Number: BMS 270/Biochem 210
Course Name: Micropathology module 2: Special Topics in Microbial Pathogenesis
Units: 3
Grading Option: S/U
Course Director: Joanne Engel

MORE COURSE INFORMATION
Additional Course Director(s):
Room Number: Mondays, Tuesdays and Fridays in CL-221; Thursdays in S-161
Campus: Parnassus Heights
Schedule: April 24-May 12, 2017; M, TH, F, 9:30-11:30 AM & T, 10:00 AM-12:00 PM
Prerequisites: None
Maximum Class Size:12

Course Description: In this minicourse, students will learn about fundamentals of the pathogenesis of fungal and parasitic infections, including malaria, as well as advances in studying the microbiome, antibiotic resistance, biofilms, and emerging infections.
